DIARY NOTES

ADD/A (Colonel White)

18 January 1952

1. Talked with Larry Houston and Ed Saunders about [REDACTED] This 25X1A2
Project was submitted to the Project Review Committee and so presented that it ap-
peared that the Agency would actually make money. The administrative support plan,
however, calls for the individual around whom the Project is organized to get
seventy-five per cent of the profit while we get twenty-five per cent. Contacted
25X1A9a [REDACTED] who agreed to send the Project back to the Comptroller and General Coun-
sel for comment prior to presenting it to the Director for final approval.

25X1A9a 2. Discussed with Larry Houston, [REDACTED] the possibility of
25X1A9a sending [REDACTED] both were uninterested. I told Larry
25X1A9a Houston to tell [REDACTED] that we could give him no final decision at this time
and not to encourage him to wait for a final answer if he had other irons in the
fire.

25X1A9a 3. Larry Houston called my attention to a newspaper item in which [REDACTED] 25X1A
[REDACTED] of OPC was listed as a member of a political committee sponsoring the Eisen-
hower Rally. This, of course, is contrary to law and Mr. Houston is following
through on it.

4. Reviewed with Bill Peel and Ed Saunders the Table of Organization situation
in light of the Director's commitment to the Bureau of the Budget that we would ac-
cept a cut of 1200 positions for the Fiscal Year 1953. Have yet to see the Direc-
tor with reference to this matter but wish to point out to him that offices are al-
ready requesting T/O's on their 1953 budget estimates. If we are to accept this
departmental cut we must hold the line at about our present authorized strength. In
consideration of our present rate of entry on duty, the over-all situation is prob-
ably all right but Assistant Directors must be told of this cut and that we must
hold the line in order to prohibit individual offices from getting out of balance
and creating a situation which would be most difficult to rectify at a later date.

25X6

25X1A9a 6. [REDACTED] advises me that the Director has approved of publishing a
Notice announcing the following appointments:

25X1A9a

[REDACTED]
Assistant to the Director
to the Director
- Assistant to the Director
tant to the Director
ecial Assistant to the DD/A

SECURITY INFORMATION

25X1A9a [REDACTED] also states that the Director has approved of my recommendation that the DD/A sign all Notices of appointments such as these "For the Director of Central Intelligence."

25X1A9a [REDACTED]

8. Colonel Edwards telephoned to say that at the request of one of the divisions of DD/P he was sending [REDACTED] tomorrow to be gone about one week. 25X1A6a

25X1A6a

25X1A6a

9. Colonel Edwards reports that there is an article in this morning's Times-Herald stating that the "Pentagon Bows to Morse on Polygraph." Senator Morse, according to the article, objects to the Pentagon using the polygraph on certain applicants, etc. Walter Pforzheimer is confident that he can handle Senator Morse if necessary. [REDACTED] was tipped off that Senator Morse might approach the Director on this. If he should, our line, which is true even though technical, will be that we do not use the polygraph on applicants, we have used it on employees who have already had the oath administered, but we have never turned down an applicant solely because of the polygraph. We can also explain our peculiar risk, etc. Jack [REDACTED] was to advise the Director so that we would all take the same party line if we did have to face this situation.

10. Attended Project Review Committee Meeting and have prepared a separate memorandum for your information on this subject.
